MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: CIA Organization for Scientific and Technical Intelligence

Please refer to your memorandum of December 23, 1963 and your enclosed report summarizing organizational changes which have been made by the Central Intelligence Agency in meeting objectives of recommendations of the President's Foreign Intelligence Advisory Board for the creation, organization and exploitation of new resources of science and technology for use in intelligence activities.

It is most helpful to have your report on the actions being taken by the Central Intelligence Agency in this field, and I would appreciate your submission of a further report to this office and to the President's Board by April 15, 1964, on the progress made by the Central Intelligence Agency in the areas covered in your recent report. It would also be useful if you would include a coordinated report on the status of actions being taken by the other agencies of the intelligence community to meet the objectives of Paragraphs (a) and (e) of the Board's recommendation.
